

A diagram consisting of a grid of lines. A vertical line is on the left, and two horizontal lines are spaced apart. A diagonal line slopes downwards from the top-left towards the bottom-right, crossing both horizontal lines. The number '2' is centered in the space between the two horizontal lines.

2

A diagram consisting of a grid of lines. A vertical line is on the left, and a horizontal line is at the top. A diagonal line starts from the top right and goes down to the bottom right. The number '3' is centered in the middle of the grid.

3

A diagram consisting of a grid of lines. A vertical line is on the left, and two horizontal lines are present. A diagonal line starts from the top right and goes down to the bottom right. The number 4 is centered in the space between the two horizontal lines and to the right of the vertical line.

The image shows a coordinate system with a vertical y-axis and a horizontal x-axis. A curve starts from the bottom-left quadrant and rises steeply into the top-right quadrant. The number '11' is printed in the upper-left region of the graph.
