

A diagram consisting of a grid of four quadrants defined by a vertical line on the left and two horizontal lines. A diagonal line runs from the top center to the bottom right. The number '2' is centered in the middle-right quadrant.

2

A diagram consisting of a grid of lines. A vertical line is on the left, and two horizontal lines are spaced apart. A diagonal line starts from the top right and goes down to the bottom right, crossing the two horizontal lines. The number '3' is centered in the space between the two horizontal lines.

5

6

7

A diagram consisting of a grid of four horizontal and four vertical lines. A diagonal line runs from the bottom-left towards the top-right, intersecting the grid. The number '8' is positioned in the upper-left quadrant of the grid.

8

9

The image features a white background with a black grid. A vertical line is positioned on the left side, and a horizontal line is positioned near the top. A diagonal line starts from the bottom right and extends towards the top right. The number '10' is centered in the area between the vertical and horizontal lines.

10

A diagram consisting of a grid of four lines: a vertical line on the left, a horizontal line at the top, a horizontal line at the bottom, and a diagonal line sloping upwards from the bottom-left towards the top-right. The diagonal line intersects the top horizontal line and the bottom horizontal line. The number '11' is centered in the rectangular region formed by the vertical line, the top horizontal line, and the bottom horizontal line.
