

2

A diagram on a white background. A light blue shaded parallelogram is defined by a horizontal line at the top, a horizontal line at the bottom, a vertical line on the left, and a diagonal line on the right. The diagonal line slopes downwards from left to right. A large, bold, black number '3' is centered within the parallelogram.

3

A diagram showing a light blue shaded parallelogram. The parallelogram is defined by a horizontal top edge, a horizontal bottom edge, a vertical left edge, and a slanted right edge. A large, bold number '4' is centered within the parallelogram.

12

A diagram consisting of a light gray shaded parallelogram. The parallelogram is defined by a vertical line on the left, a horizontal line at the top, a horizontal line at the bottom, and a diagonal line on the right. The diagonal line slopes upwards from the bottom-left to the top-right. The number 13 is centered within the parallelogram.

13

A graph on a white background. A vertical line is positioned on the left side. A horizontal line is positioned in the lower half. A curve starts from the bottom left, crosses the horizontal line, and curves upwards to the right, crossing the vertical line. The number 14 is placed to the left of the curve, between the horizontal and vertical lines.
