

A diagram on a white background. It features a grid of thin black lines. A vertical line is on the left side, and two horizontal lines are spaced apart. A curved black line starts from the top right and curves downwards and to the left, crossing the upper horizontal line and the lower horizontal line. The number '2' is centered in the space between the two horizontal lines.

12

A diagram consisting of two horizontal lines and one vertical line. The vertical line is positioned on the right side of the page, intersecting both horizontal lines. The number 13 is located in the left-hand region between the two horizontal lines.

13

A diagram consisting of a grid of lines. A vertical line is on the left, and a horizontal line is at the top. A second horizontal line is below the top one. A slanted line starts from the bottom right and goes up and to the left, crossing the top horizontal line. The number '14' is centered in the space between the two horizontal lines and to the right of the vertical line.

14

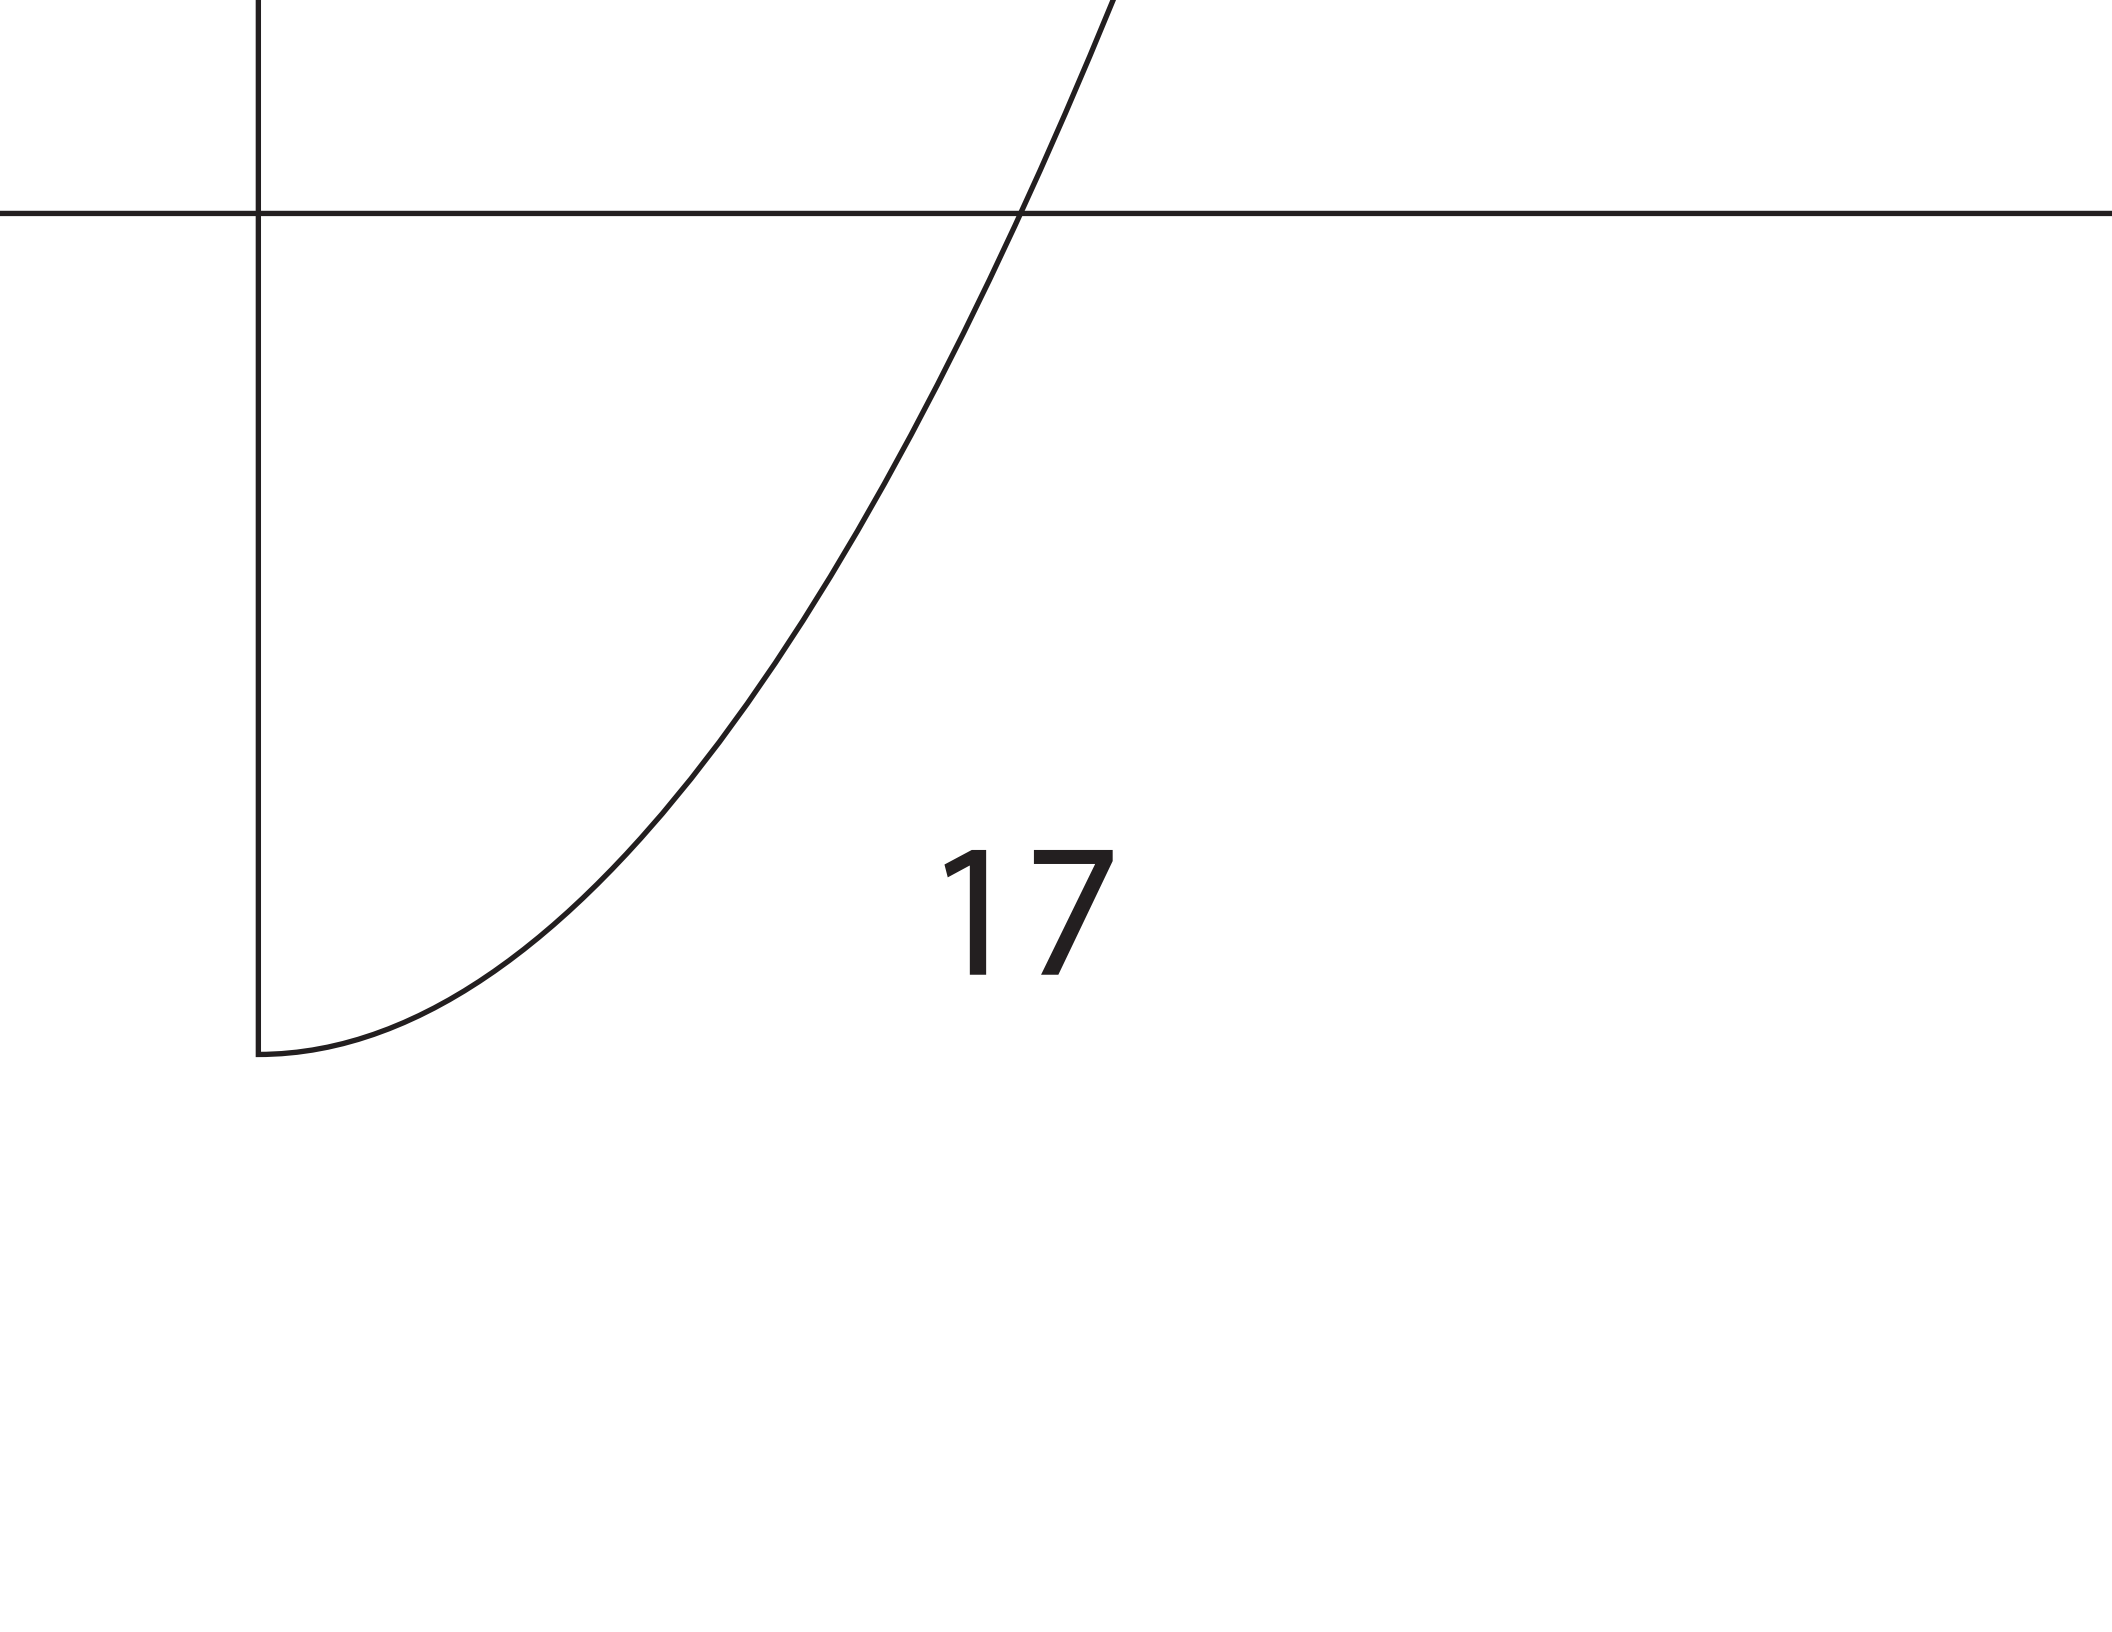

A diagram consisting of a grid of lines. A vertical line is on the left, and a horizontal line is at the top. A diagonal line starts from the bottom right and goes towards the top right, crossing the top horizontal line. The number '15' is centered in the large rectangular area formed by the left vertical line, the top horizontal line, and the diagonal line.

15

A diagram consisting of a grid of lines. A vertical line is on the left, and two horizontal lines are spaced apart. A diagonal line slopes upwards from the bottom-left towards the top-right, crossing both horizontal lines. The number '16' is positioned in the lower-left quadrant, between the two horizontal lines and to the left of the diagonal line.
