

2

The diagram features a light blue shaded quadrilateral. The top-left corner is a right angle, formed by a vertical line segment and a horizontal line segment. The bottom-left corner is also a right angle, formed by the same vertical line segment and a horizontal line segment. The right side of the quadrilateral is a diagonal line segment. A large, bold, black number '3' is positioned in the center of the quadrilateral.

7

A diagram consisting of a horizontal line, a diagonal line, and the number 8. The horizontal line is positioned in the upper third of the image. The diagonal line starts from the bottom right and extends upwards and to the left, crossing the horizontal line. The number 8 is located in the lower-left quadrant of the image.

8

A graph on a Cartesian coordinate system. The x-axis and y-axis are shown. A curve starts from the bottom-left and goes up and to the right, curving upwards. The region between the curve and the y-axis is shaded light blue. The number 9 is written in the middle of the shaded region.
